

Modernidad E Identidad Del Yo

SA Adler

Modernidad e identidad del yo Anthony Giddens, 1997 Las instituciones modernas difieren de todas las formas anteriores de orden social por su dinamismo, el grado en que desestiman los usos y costumbres tradicionales y su impacto general. No obstante, no se trata de meras transformaciones externas: la modernidad altera de manera radical la naturaleza de la vida social cotidiana y afecta a los aspectos más personales de nuestra experiencia. La modernidad se ha de entender en un plano institucional; pero los cambios provocados por las instituciones modernas se entretajan directamente con la vida individual y, por tanto, con el yo. Uno de los rasgos distintivos de la modernidad es, de hecho, una creciente interconexión entre los dos extremos de la extencionalidad y la intencionalidad: las influencias universalizadoras, por un lado, y las disposiciones personales, por otro. El propósito de este libro es analizar la naturaleza de estas interconexiones y proporcionar un vocabulario de conceptos para reflexionar sobre ellas.

Fe y Desplazamiento Christopher M. Hays, Milton Acosta, 2022-12-20 Durante décadas, la nación de Colombia ha sufrido el flagelo del desplazamiento forzado debido al conflicto armado, lo cual ha dejado más de ocho millones sin hogar y sin tierra. Para responder ante esta crisis, los teólogos de la Fundación Universitaria Seminario Bíblico de Colombia crearon una metodología—la investigación-acción misional—a fin de entender el fenómeno del desplazamiento forzado, movilizar las iglesias del país y así fomentar la recuperación holística de las víctimas. Se involucraron docenas de estudiosos y profesionales de cuatro continentes, además de coinvestigadores seleccionados de las mismas comunidades desplazadas. La investigación abarcó los campos de la teología, la economía, la política, la pedagogía, la sociología y naturalmente la teología. El fruto de esta colaboración innovadora fue una intervención llamada Fe y Desplazamiento, la cual se ha implementado en docenas de comunidades a lo largo del país. Este libro recopila sus hallazgos y aprendizajes, describiendo el potencial de la

metodología de investigación-acción misional y demostrando el poder de la investigación teológica interdisciplinar, puesta al servicio de la misión de la iglesia local.

Comunicación, campo y objeto de estudio Maria Immacolata Vassallo de Lopes, Raúl Fuentes N., 2001 ¿Qué campo de estudios garantiza la comprensión de una era? En la llamada era de la comunicación, las ciencias sociales y disciplinas como las matemáticas, la informática y la economía participan en el estudio de este fenómeno social. Pero ¿cuál es el campo específico de lo que se llama ciencias de la comunicación?, ¿cuál es el estado de la cuestión en esta disciplina, cuyos fundamentos teóricos se construyeron en otra realidad social? La mundialización de la economía y el desarrollo de las tecnologías telemáticas han generado, en lo práctico y en lo conceptual, una nueva realidad. Una sociedad de los medios que obliga a la revisión de teorías y conceptos que se habían considerado inamovibles. El esquema tradicional de emisor-mensaje-receptor da paso a las nuevas posibilidades del hipertexto y la tecnología multimedia. La comunicación es ahora parte de la economía, ya no sólo de la ideología. La globalización ha afectado de manera irreversible los procesos de construcción de la identidad.

La salvación del alma moderna Eva Illouz, 2010-03 Sea bajo la forma del análisis introspectivo, de un taller 'new age' de mente-cuerpo o de un programa de reafirmación personal, la terapia ha logrado un nivel inusual de legitimidad cultural en una gran variedad de grupos sociales, organizaciones, instituciones y entornos culturales. El discurso terapéutico ha atravesado y ha desdibujado las esferas estancas de la modernidad hasta llegar a constituirse como uno de los principales códigos con los cuales expresar, conformar y guiar al yo, a tal punto que la perspectiva terapéutica se ha convertido en uno de los centros de esa entidad vaga y amorfa conocida como civilización occidental. Sin embargo, la sociología y el análisis cultural han soslayado el estudio de ese proceso, de modo tal que esta obra de Eva Illouz viene a ocupar un sitio vacío en la comprensión de nuestra modernidad. El objetivo de este libro -señala la autora- es no sólo documentar los diversos aspectos de la cultura terapéutica sino también localizar la emergencia de una nueva 'estructura cultural'. Para ello, Illouz analiza el modo en que el lenguaje de la terapia ha reformulado el nivel más profundo de los símbolos de identidad, en un proceso que tuvo lugar simultáneamente a través de los canales especializados y formales del conocimiento científico y a través de las industrias culturales (el cine, la prensa, popular, la industria editorial, la televisión). Así, este libro puede ser leído como un fragmento de una historia cultural de la introspección: una historia del lenguaje y de las técnicas que utilizamos para tratar con nosotros mismos y para examinarnos a través de categorías tales como deseos, memorias y emociones.

Multiple Experiences of Modernity Oliver Kozlarek, 2014 Contemporary theories of modernity recognize the plurality or »multiplicity± of modernities. Often the differences are seen as institutional or cultural differences. Although this sort of research is important it cannot be ignored that it does not provide a clear understanding of the »human consequences±. The

tradition that today is known under the name of Critical Theory, on the contrary, has been interested always first of all in the human consequences. This book wants to follow this ambition. The question it tries to search answers for is: what are the experiences that human beings are making in and within global modernity? Another question is important: what are the affinities and what are the differences. Also Critical Theory was mainly interested in the Western experiences with and within global modernity. The book will challenge this limited view by looking how modernities is experienced in other parts of the world.0Following the tradition of critical theory, the volume enquires into the experiences people make with and in global modernity. It thereby seeks to draw attention to both affinities and differences in these experiences, and to depart from the western horizon of experience and consider other forms of experience. Current theories of modernity are based on the assumption of the diversity of modernity. This diversity is frequently understood to be the outcome of institutional and cultural differences.

Young People in Complex and Unequal Societies ,2022-05-02 Youth studies in Latin America and Spain face numerous challenges. This book delves into youth experiences in the 21st century, shaped by complex and pressing issues: the surge of youth cultures and groups, visual images of youth throughout time, and fragmented youth experiences in radically unequal societies. It analyzes young people as precarious natives in global capitalism and labor uncertainty, juvenicide, feminist discourse, social networks, intimacy and sexual affection among young people in a context of growing claims of gender equality. Also included are rural and indigenous youth as political actors, the actions of young political activists within government administrations, the experience of youth migration and empowerment, and young people dealing with the digital world. How have youth studies approached these issues in Latin America and Spain? Which were the main developments and transformations in this research field over the past years? Where is it heading? Relaciones socioeducativas Úcar Martínez, Xavier,2016-09-12 Las personas aprendemos, nos socializamos y nos educamos a través de las relaciones interpersonales que mantenemos con los otros en el marco de unos determinados contextos socioculturales, físicos y virtuales. ¿Cómo pueden hacer frente los profesionales de lo social y lo cultural a la

incerteza e imprevisibilidad de dichas relaciones? Este libro analiza los principales elementos que intervienen en la relación socioeducativa, se cuestiona algunas de las ideas tradicionales sobre la acción e intervención socioeducativas y genera nuevos enfoques y perspectivas sobre la acción de los profesionales. Unos enfoques que les ayudarán a descubrir los límites y las oportunidades que caracterizan sus quehaceres profesionales, pero que, sobre todo, les proporcionarán nuevas herramientas teóricas y metodológicas para afrontar una tarea tan compleja como la de acompañar a las personas en las situaciones y problemáticas de su vida cotidiana.

Edith Stein's An Investigation Concerning the State: Sociality, Nationhood, Ethics Eva Reyes-Gacitúa, Antonio Calcagno, 2020-02-24 This book explores Edith Stein's phenomenology of the state. It features chapters on the application of Stein's political philosophy to real issues and questions affecting nations today. The contributors also situate Stein's political theory within her larger philosophical corpus. The collection examines *An Investigation Concerning the State* from various angles. Scholars first consider some of the direct claims Stein makes about social and political ontology. They mine her work for its implications for and applications to contemporary debates. Then, the contributors position her work in relation to other figures in phenomenology, including Edmund Husserl and Max Scheler. Finally, Stein's views are brought to bear on other disciplines, including feminism, theology, and literature. The contributors also use her theory of the state to address various contemporary issues, including bioethics and rights, globalization, as well as social and political inequality. The view of the state that emerges has implications for how we do politics and make ethical decisions. Moreover, Stein's work has an impact on our views of sociality (as opposed to the sociality of contractarian views of the state), pedagogy, women, theories of justice and law, as well as social psychology and religion. This volume helps readers better understand this vital voice in political philosophy and appeals to students, professors, and researchers working in the field.

Latin American Perspectives on Globalization Mario Sáenz,2002 From the most prominent thinkers in Latin American philosophy, literature, politics, and social science comes a challenge to conventional theories of globalization. The contributors to this volume imagine a discourse in which revolution is defined not as a temporalized march of progress or takeover of state power, but as a movement for local control that upholds standards of material conditions for human dignity. Essays on identity, equality, and ethics propose models of transcultural and intercultural relations that replace center/periphery or world-systems approaches; they impel us to focus on building dialogic relationships rather than on accommodating universalized paradigms. Ultimately suggesting a reconstruction of the world in terms of the interests of one of the peripheral regions of the world, *Latin American Perspectives on Globalization* argues with cogency and urgency that no one within contemporary globalization debates can afford to ignore the Latin American philosophical tradition.

Football, Fandom and Collective Memory Przemysław Nosal,Radosław Kossakowski,Wojciech Woźniak,2024-06-18 This book examines the topic of identity and collective memory in football fandom. Drawing on global research in history, sociology and political science, the book looks at how, where and why football fans and supporters' groups introduce particular role models into their self-identity and performative narratives. The book presents original, cutting-edge research that illustrates the complex, multidimensional nature of the (re-)formulation of collective memory and the elevation of role models. It looks at the processes by which some supporters' groups celebrate historical and contemporary figures - including political leaders, warriors, revolutionaries, or armed resistance groups - that they believe embody patriotic, regional or nationalist virtues, as well as supporters' groups who define their patriotism in opposition to these figures. The book presents cases ranging from Ukrainian football ultras in the shadow of Russian aggression, and Jewish role models in Germany's collective football memory, to the symbology of Che Guevara and Diego Maradona in Brazilian and Argentinian football, to hero formation and the myths of national identity in Australian football. This is fascinating reading for anybody with an interest in the sociology, culture or politics of sport, or in fandom, identity, nationalism more broadly in sociology, political

science or history.
