_Buddhism Vs Hinduism_ Dharam Vir Mangla, 2010 This book informs us about the basic essence of Buddhism in comparison to Hinduism. It is essential to start with the first chapter to understand the correct meaning of the basic spiritual terms used in this book. In most of the books spiritual terms may have been used differently. Many people think and propagate that all religions basically teach the same, and have same objectives, but may have different paths. But in fact, there are basic philosophical contradictions. Unless we understand these differences properly and try to remove them, the unity of all the religions may not be achieved. The aim of this book is understand the essence of Buddhism and its differences with Hinduism, if any. Why and how it spread in most of the countries? Why and how in India Buddhists adopt to Hinduism later? Basically Buddhism evolved from Hindu Dharma as Buddha was a Hindu. But he discarded God, soul, Scriptures and Brahmanism. More or less it was a contrast to Hinduism. Buddha has been controversial and misunderstood by many. Many people think that Buddha was an incarnation of Lord Vishnu and his enlightenment was “Self-realization or God-realization”. But this does not seem to be correct. Is it not ridiculous to call some one as an Avatara of God, if he doesn't believe in God? The book clarifies the difference between ‘Moksha & Nirvana’ and 'Buddhist and Hindus meditations', which in fact differ in many respects. Author has also compared two more religions Jainism & Islam with Buddhism and Hinduism. But the comparison has been limited only up to philosophical level and not about traditional differences. Author has due respect to all the religions.

**Buddhism and Hinduism (a Comparative Study)** Dharam Vir Mangla,2018-12-26 This book is a rare attempt and a masterpiece, which helps us to understand better the religions like Buddhism, Jainism, Islam and Hinduism. Most of us absurdly think that all the religions are same, teaches same and have different paths to follow. Many of us wrongly believe that all religions and their founders believe in God, soul, Scriptures and Moksha. Many think that all the Shrines, Stupas and Temples are the place of worship of God. This book reveals that the truth is opposite to our common belief. Due to lack of the knowledge of spiritual terms, most of the authors are confusing the readers by misusing the spiritual terms. This book reveals the correct meaning and the differences between the terms like Dharma--Religion--Non-religion; Avatara--Saint; Self-realization--Enlightenment--Awakening; Scriptures--Ordinary Books; Logic--Illogic; Mindfulness--Mindlessness; Spiritual--Atheist; Moksha--Nirvana--Liberation etc. All these terms appear alike and are confusing to a layman, but this book clarifies the difference between them. Most of the religions are propagating their contradictory doctrines, which are logically untenable. At least one of the doctrines must be incorrect. Some of the religions and their heads are tempering their Holy-Books by deleting, editing and adding something; and propagating their founders as God or Lord, while their founders have clearly declared that they are ordinary man or a saint or a 'son of God' or an atheist or a non-believer of God. Many religions are busy in constructing unnecessarily their huge Shrines with an enormous expenditure in the memory of their founders, where God is not worshiped. But a common man generally misunderstood these as a place of worship of God. It is an extraordinary unique spiritual book to throw light on such attempts. It is strange that some non-religions, which do not believe in God, Spirit and soul, are declaring their founders and heads as most spiritual in the world. Can anybody, who does not believe in Spirit or God or does not seek to know the Spirit be called spiritual? This is a book, which clarifies the most of our inner confusions. Author is M.Sc. M.Ed. PGDCA, retired Principal got his master's degrees from University of Delhi. He is religious and extraordinary combination of spiritual and scientific bent of mind. He is practicing 'Kriya Yoga' since 1969 & has opportunity of the company and blessings of great saints. He has devoted his life in the pursuit of God, spiritual studies and yoga. His books are rare masterpieces based upon his spiritual inner experiences and vast studies, which are useful for both believers and non-believers. His writings are commendable research work and a reservoir for further spiritual researches. At the time of King Ashoka, all Hindus accepted Buddhism to save themselves form the clutches of cruel Ashoka.
But later about 7th to 8th century A.D. a great saint Adi-Shankara reconverted Buddhist back to Hinduism without any atrocities or cruelty, He left his adobe at an early age of about 32 years. Both Buddhism and Jainism are different Mat (opinion) under Hinduism and not separate Dharma. Dharma has come from God Himself, but all Religions, Mat, Dal, Sampardaya, Samaj etc. are man made and have their founders, but no super mind Super-Scriptures. Book explains no human-power has any authority to restrict or ban the birth of Almighty God on earth. Has any body ever proved that God can't take birth on earth? Even the religion like Christianity are now falsely declaring Christ as an avatar of God, although Christ himself denied so many times in his life that he was not God and Christianity has been affirming for the last 2000 yrs. that God can't take birth on earth. But now Christianity is tempering Bible and propagating false.

Discerning The Buddha: A Study Of Buddhism And Of The Brahmanical Hindu Attitude To It Lal Mani Joshi,2008-01-01
Description: Modern enlightened Hindus wedded to the Vaidika/Sanatana Dharma tradition hold that the Buddha was a Hindu reformer, Buddhism a Hindu sect; that original Buddhist teaching was Vedantic or Hinduistic, and that the Buddhists have misunderstood the fulfilment of the Hindu religion and distorted the original teachings of the Great Master! On the other hand, stalwarts like Swami Vivekananda and Sarvapalli Dr Radhakrishnan also say that the Buddha is one of the makers of Hinduism. The former even said that the Buddha was the greatest Hindu seer, philosopher, Vedantin, Karmayogin, and the only God who walked on the earth. Satkari Mookerjee has declared that every Hindu is a Buddhist. The Puranas inform us that the son of Suddhodana, born among the non-Aryan tribe of Kikatas, was no other than the Supreme Lord Visnu who had assumed a false avatara for the sole purpose of misleading demons! This Incarnation of God had criticised the Vedas, opposed the sacred Vedic ceremonies, and questioned the supremacy of the Brahmanas. The present book attempts an analysis and a systematic study of the traditional Brahmanical now called Hindu attitude to Buddhism in India. The bulk of the volume, however, is devoted to an exposition of the fundamental doctrines of Buddhism in the Indian context. The evolution of Hinduism, the differences between Buddhism and Brahmanism/Hinduism, the differences between the ancient and medieval representatives and modern representatives of the Brahmanical tradition to Buddhism, Buddhist responses to this modern Hindu attitude, and a review of Buddhist contributions to Indianism, are some of the subjects discussed in this book. One of the most important parts of the book deals with what the author has called God's Alternative in Buddhism. An outline of Buddhology as a systematic study of the idea of Buddhahood, is one of the new themes discussed here.

The Concept of Self in Hinduism, Buddhism, and Christianity and Its Implication for Interfaith Relations Kiseong Shin,2017-05-05 This is the first comparative study of the self and no-self in Hinduism, Buddhism, and Christianity. In spite of doctrinal differences within these three belief systems, they agree that human beings are in a predicament from which they need to be liberated. Indian religions, including Hinduism and Buddhism, share the belief that human nature is inherently
perfectible, while the epistemological and psychological limitation of the human being is integral to Christian belief. Regarding the immortality of the human being, Hinduism and Christianity traditionally and generally agree that human beings, as atman or soul, possess intrinsic immortality. On the contrary, Buddhism teaches the doctrine of no-self (anatta). Further, in their quest to analyze the human predicament and attempt a way out of it, they employ different concepts, such as sin and salvation in Christianity, attachment (tanka) and enlightenment (nirvana) in Buddhism, and ignorance (avidya) and liberation (moksa) in Hinduism. This volume seeks to show that that behind these concepts are deep concerns related to human existence and its relationship with the whole creation. These common concerns can be a basis for a greater understanding and dialogue between Christians, Hindus, and Buddhists.

Religions View Religions Jerald D. Gort, Henry Jansen, H. M. Vroom, 2006 Because religion is so central to the lives and experience of the vast majority of people throughout the world, it figures very prominently in a variety of ways in interhuman relations. Unfortunately, 'religion' often appears to be one of the potent sources of mistrust, discord and strife between and among individuals, groups and cultures. What frequently lies at the root of such suspicion and dissension is general ignorance concerning the religious other, a lack of knowledge about his or her beliefs, aspirations and views of the good and morally honorable life. And even if people have some factual knowledge about other religions, they regularly display little understanding of them and their adherents. Learning both to know and understand people of other faiths and their religions is absolutely requisite to the realization of paradigms of coherent and intelligent 'convivance, ' that is, living together in sensible, peaceable and cooperative harmony. An effective agency for fostering such knowledge and understanding is the discipline of theology of religions, which examines how religions have and ought to view other religions. And it is particularly the practice of comparative theology of religions which bears the most promise in this regard. The present symposium consists of precisely this kind of comparative exercise and may be viewed as an important contribution to the development of a new project which endeavors to enlarge the horizon and broaden the focus and reflection of theology of religions as that has been gradually developed during the last few decades, a new enterprise, in other words, which seeks to universalize and mutualize theology-of-religions discourse. One of the important things this volume shows is that the views religions have of other religions differ from one another in very substantial ways, which is explained by the fact that they derive from diverging paradigms of faith, belief and ritual and specific cultural and social contexts. This textbook demonstrates how strongly different Hindu, Buddhist, Shinto and Confucian views are from those of Islam, Judaism and Christianity, which latter in turn also exhibit considerable differences among themselves. These differences are greater than people immersed in their own cultures often realize or expect. It is becoming ever more clear that ignorance of or disinclination to acknowledge or refusal to accept these real differences constitute major root causes of serious conflicts in the world. The essays in this book, written by representatives of the major world religions, offer descriptive and/or prescriptive appraisals of other
religions in general or one other religion in particular from the perspective of the religion of the author concerned. It is hoped that this unique exercise in intercultural theology of religions will generate insights and new forms of understanding which can be used by religious leaders and other educators to help correct the disposition toward religious haughtiness, insularity and communalism and the dangerous leanings toward interreligious suspicion, antipathy and animosity which are all too often evident in our contemporary societies.

**The Eternal Food** R. S. Khare, 1992-08-25 An interdisciplinary study of the cultural meaning and uses of food in India and Sri Lanka, drawing on the abundant commentary by saints, ritualists, poets, and the divine, in both religious and literary contexts. The eight papers, some from a January 1985 conference, Food Systems and Communications Structures, in Mysore, India, focus on the long-term, wide spread significance of food, rather than on caste differences, changing diets, or a comparison between Hindu and Buddhist approaches. Includes a glossary without pronunciation. Paper edition (unseen), $17.95. Annotation copyrighted by Book News, Inc., Portland, OR

**Buddhists, Hindus, and Sikhs in America** Gurinder Singh Mann, Paul Numrich, Raymond Williams, 2007-12-03 Buddhists, Hindus, and Sikhs in America explores the challenges that Asian immigrants face when their religion--and consequently culture--is remade in the U.S.A. Peppered with stories of individual people and how they actually live their religion, this informative book gives an overview of each religion’s beliefs, a short history of immigration--and discrimination--for each group, and how immigrants have adapted their religious beliefs since they arrived. Along the way, the roles of men and women, views toward dating and marriage, the relationship to the homeland, the brain drain from Asia of scientists, engineers, physicians, and other professionals, and American offshoots of Asian religions, such as the Hare Krishnas and Transcendental Meditation (TM), are discussed.

**What the Buddha Taught** Walpola Rahula, 2007-12-01 “A terrific introduction to the Buddha’s teachings.” —Paul Blairon, California Literary Review This indispensable volume is a lucid and faithful account of the Buddha’s teachings. “For years,” says the Journal of the Buddhist Society, “the newcomer to Buddhism has lacked a simple and reliable introduction to the complexities of the subject. Dr. Rahula’s What the Buddha Taught fills the need as only could be done by one having a firm grasp of the vast material to be sifted. It is a model of what a book should be that is addressed first of all to ‘the educated and intelligent reader.’ Authoritative and clear, logical and sober, this study is as comprehensive as it is masterly.” This edition contains a selection of illustrative texts from the Suttas and the Dhammapada (specially translated by the author), sixteen illustrations, and a bibliography, glossary, and index. “[Rahula’s] succinct, clear overview of Buddhist concepts has never been surpassed. It is the standard.” —Library Journal

**Philosophy Bridging the World Religions** P. Koslowski, 2013-04-18 This is the fifth and last volume of the EXPO-Discourses of the World Religions (World Exposition EXPO 2000, Hannover, Germany). The series aims at a deeper
understanding of the similarities and differences between Hinduism, Buddhism, Judaism, Christianity, and Islam in their theological and philosophical propositions. It sees in philosophy a bridge between the religions and a means to overcome religious hostility and fundamentalism and to further the dialogue of the religions.

Probing the Depths of Evil and Good, 2007-01-01 In the few years since the attack on the World Trade Center on September 11, 2001, evil has become a central theme in the media and human consciousness: the evil of terrorism, the evil of secular culture, concern for poverty, and climate change... Yet different cultures and religious traditions have different ideas of what evil is and what its root causes are. Although there is no massive clash of cultures, many disagreements and also conflicts in the world arise from the deep differences in views of evil. This volume explores religious views of evil. Scholars from different religions and from various parts of the world describe how people probe the depths of evil—and by necessity that of good—from their own background in various worldviews. In their explorations, almost all address the need to go beyond morality, and beyond legalistic definitions of evil and of good. They point to the radical depths of evil in the world and in human society and reinforce our intuition that there is no easy solution. But if we can gain a better understanding of what people from other worldview traditions and cultures consider evil, we are that much closer to a more peaceful world.

Hinduism and Buddhism (Vol. 1-3) Charles Eliot, 2023-11-16 Hinduism and Buddhism in 3 volumes is a work by Charles Eliot whose aim is to give a sketch of Indian thought or Indian religion, for the two terms are nearly equivalent in the book, and of its history and influence in Asia. As the author pointed out, it is impossible to separate Hinduism from Buddhism, for without it Hinduism could not have assumed its medieval shape and some forms of Buddhism, such as Lamaism, countenance Brahmanic deities and ceremonies, while in Java and Cambodia the two religions were avowedly combined and declared to be the same. Neither is it convenient to separate the fortunes of Buddhism and Hinduism outside India from their history within it, for although the importance of Buddhism depends largely on its foreign conquests, the forms which it assumed in its new territories can be understood only by reference to the religious condition of India at the periods when successive missions were despatched. Shared Characters in Jain, Buddhist and Hindu Narrative Naomi Appleton, 2016-11-25 Taking a comparative approach which considers characters that are shared across the narrative traditions of early Indian religions (Brahmanical
Hinduism, Jainism and Buddhism) Shared Characters in Jain, Buddhist and Hindu Narrative explores key religious and social ideals, as well as points of contact, dialogue and contention between different worldviews. The book focuses on three types of character - gods, heroes and kings - that are of particular importance to early South Asian narrative traditions because of their relevance to the concerns of the day, such as the role of deities, the qualities of a true hero or good ruler and the tension between worldly responsibilities and the pursuit of liberation. Characters (including character roles and lineages of characters) that are shared between traditions reveal both a common narrative heritage and important differences in worldview and ideology that are developed in interaction with other worldviews and ideologies of the day. As such, this study sheds light on an important period of Indian religious history, and will be essential reading for scholars and postgraduate students working on early South Asian religious or narrative traditions (Jain, Buddhist and Hindu) as well as being of interest more widely in the fields of Religious Studies, Classical Indology, Asian Studies and Literary Studies.

_Hinduism and Buddhism_ Ananda Kentish Coomaraswamy, 2019-02-10 This outstanding work represents in many ways the most complete achievement of Ananda K. Coomaraswamy (1877-1947), one of the main modern representatives of the Hindu tradition. Displaying an unequaled mastery of Sanskrit, Pali, Greek, Latin, and medieval German and Italian sources. The book is divided into two parts, one on Hinduism, the other on Buddhism, the parallelism between the fundamentals is so great that only a single truth, or rather an aspect of The Single Truth, is expressed. The aspect, however, has to do with metaphysical first principles. The author is of one mind with the Indian tradition, which is one of the forms of the Philosophia Perennis, and as such, embodies those universal truths to which no one people or age can make exclusive claim. The author gives an authoritative exposition of the teachings of these two religions as understood by those who practiced them rather than as understood by scholars and comparative religionists who studied and viewed them from without. Coomaraswamy assumes that even the oldest forms of Hinduism were neither polytheistic nor pantheistic and that there is no doctrine of reincarnation, other than that of the immanent God 'who never become anyone.' Hinduism is the oldest of the surviving mystery religions whose formulations are essentially the same as those of Platonism Christianity, Taoism and other traditional doctrines. Buddhism is treated in a similar manner. The life of the pseudo-historical founder, the Conqueror of Death, repeats the original myth of the archetypal dragon-slayer. His doctrine -- as he asserts very forcibly -- is not his own but the re-opening of the 'ancient path.' Buddhism is thus not a 'new' religion, but rather a reiteration, with different emphases, of the same teachings that are to be found in the ancient Vedas.

The Entry Into Heaven. Night of Slaughter. The Morning Prayer. Proverbial Wisdom From the Shlokas of the Hitopadeśa... Edwin Arnold (1832-1904) was an English poet and journalist. The literary task which he set before him was the interpretation in English verse of the life and philosophy of the East. The Light of Asia, subtitled The Great Renunciation, is in a form of a narrative poem. The book endeavors to describe the life and time of Prince Gautama Siddhartha, who after attaining enlightenment became The Buddha, The Awakened One. The book presents his life, character, and philosophy, in a series of verses. It is a free adaptation of the Lalitavistara. A few decades before the book's publication, very little was known outside Asia about the Buddha and Buddhism, the religion which he founded, and which had existed for about twenty-five centuries. Arnold's book was one of the first successful attempts to popularize Buddhism for a Western readership. The Bhagavad Gita is a 700-verse Hindu scripture in Sanskrit that is part of the Hindu epic Mahabharata.
